

**FOR IMMEDIATE RELEASE**

## **The Contractor LE - A New Leading Edge SRD From FallTech**

*~ Cutting edge fall protection for leading edge applications~*

**COMPTON, CA (November 6, 2015)** – FallTech, a leading manufacturer of fall protection products built for all industries where workers are exposed to falls from elevation, today announced the release of the Contractor LE Self-retracting Device (SRD).

The FallTech Contractor LE SRD is designed to provide the highest level of safety when working around unprotected sides and edges including leading edges. Tested to the most rigorous global standards, the Contractor LE SRD is third party certified as compliant with the leading edge test requirements of ANSI Z359.14 – 2012.

- ⇒ May be used as a traditional SRD for overhead anchorage options or in below harness D-ring anchorage conditions
- ⇒ 7/32" Galvanized steel cable for added cut resistance
- ⇒ Dual energy absorber system – Internal Inertial Brake And External Shock Pack – is designed to reduce the risk of cable failure when contacting an edge during a fall event
- ⇒ ANSI Z359.13 compliant external energy absorber to reduce impact forces during edge contact in a fall event
- ⇒ Certified as ANSI Z359.14 LE compliant

Available in 30' and 50' lengths this series of SRD brings a long standing track record of performance and durability in a new configuration for those exposed to edges and below D-ring anchorage conditions.
